Determine the product size tier

1. Determine the volume and dimensions of the item.
2. Determine the unit weight and dimensional weight of the item.
3. Use the above values and the tables below to determine the product size tier.

Find the row in the table below with measurements that don't exceed the weight or the dimensions of your item.

2024 Product size tier definitions (ending on January 14, 2026)					
Product size tier	**Shipping weight[1]**	**Longest side**	**Median side**	**Shortest side**	**Length plus girth**
Small standard-size	Up to 16 oz	Up to 15 inches	Up to 12 inches	Up to 0.75 inch	N/A
Large standard-size	Up to 20 lb	Up to 18 inches	Up to 14 inches	Up to 8 inches	N/A
Large Bulky	Up to 50 lb	Up to 59 inches	Up to 33 inches	Up to 33 inches	Up to 130 inches
Extra-Large 0 to 50 lb	Up to 50 lb	Extra-Large exceeds 59 inches for the longest side or 33 inches for the median side or 33 inches for the shortest side or 130 inches for length plus girth, or if the product's larger of unit weight or dimensional weight exceeds 50 lb.

2024 Product size tier definitions (ending on January 14, 2026)					
Product size tier	**Shipping weight[1]**	**Longest side**	**Median side**	**Shortest side**	**Length plus girth**
Extra-Large 50+ to 70 lb	50+ to 70 lb				
Extra-Large 70+ to 150 lb	70+ to 150 lb				
Extra-Large 150+ lb	Over 150 lb				

[1] Shipping weight is the greater of unit weight or dimensional weight for determining size tiers.

For Large standard, oversize (excluding special oversize), Large Bulky, and Extra-Large (excluding 150+ lb), we use dimensional weight when it's larger than the unit weight to calculate fees. Fees for Small standard, Special Oversize, and Extra-Large 150+ lb are calculated using only unit weight.

2026 product size tier definitions (starting on January 15, 2026)					
Product size tier	**Shipping weight[1]**	**Longest side**	**Median side**	**Shortest side**	**Length plus girth**
Small standard-size	Up to 16 oz	Up to 15 inches	Up to 12 inches	Up to 0.75 inch	N/A
Large standard-size	Up to 20 lb	Up to 18 inches	Up to 14 inches	Up to 8 inches	N/A
Small Bulky	Up to 50 lb	Up to 37 inches	Up to 28 inches	Up to 20 inches	Up to 130 inches
Large Bulky	Up to 50 lb	Up to 59 inches	Up to 33 inches	Up to 33 inches	Up to 130 inches
Extra-Large 0 to 50 lb	Up to 50 lb	Extra-Large exceeds 59 inches for the longest side or 33 inches for the median side or 33 inches for the shortest side or 130 inches for length plus girth, or if the product's larger of

2026 product size tier definitions (starting on January 15, 2026)					
Product size tier	**Shipping weight[1]**	**Longest side**	**Median side**	**Shortest side**	**Length plus girth**
Extra-Large 50+ to 70 lb	50+ to 70 lb	unit weight or dimensional weight exceeds 50 lb. Extra-Large (up to 150 lb) exceeding 96 inches for longest side or 130 inches for length plus girth will be considered Overmax.			
Extra-large 70+ to 150 lb	70+ to 150 lb				
Extra-large 150+ lb	Over 150 lb				

[1] Shipping weight is the greater of unit weight or dimensional weight for determining size tiers.

> **Note:** Small standard-size and Large standard size is also referred to as standard size. While all other product size tiers (such as Small Bulky, Large Bulky, Extra-Large 0 to 50 lb, Extra-Large 50+ to 70 lb, Extra-Large 70+ to 150 lb and Extra-Large 150+ lb) are also referred to as Oversize.

Shipping weight for calculating fees for small standard and Extra-Large 150+ lb is based on unit weight. All other size tiers use larger of unit or dimensional weight.

Go to dimensional weight for more details. For products you currently have in FBA inventory, you can also look up your unit weight using the Fee Preview report.

To look up your unit weight:

1. Download the report.
2. Identify the product you want to look up using its FNSKU.
3. View the product size tier in the **product-size-tier** field.
